

Liverpool BID Company

*Supporting Liverpool's
cultural sector*

A night out in Liverpool was once named No3 on a global bucket list. It's not surprising why, with bars, clubs, pubs, restaurants and gigs helping to make the city move and groove once it gets dark. Yet a lot of work goes into making a night-time economy as attractive to revellers as it is to businesses, and Liverpool BID Company works closely with the night-time economy to ensure it runs smoothly.

With more than 300 BIDs in the UK, it is proven to be the vehicle that strengthens the links within the business community and improving places.

How do we support you?

Through Environment & Safety

With the BID Street Rangers cleaning over 2250 doorways and streets, walking 4500 miles, BID Safety Partnership with 3800 hours of BID Police Team support, BID-funded Citywatch (CCTV staff), BID Radio Link with 140 businesses, and over 200 businesses on the DISC crime app.

With Marketing & Animation

Support is provided by connecting Levy Payers. Over the past five years we've collaborated in five city centre festivals, commissioned 20 public artworks, delivered over 14 marketing campaigns, installed over 695 Christmas lights, decorations and installations, and a footfall of over 150,294,445 brought into the city centre.

By Connectivity & Transport

We work closely with Merseytravel and other key stakeholders, have hosted over 19 networking events, made 150 connectivity announcements, created the 911,505 city maps with Liverpool ONE, and are working closely with businesses and city to bring stakeholders together for the Eurovision Song Contest in May 2023.

Through Business Support

We identify industry trends and facilitate planning for the future. We support and fund a range of frameworks, over the past 5 years we have held over 175 training sessions, visited 2,500 businesses, taken part in world-wide events on behalf of Liverpool, and provided exclusive deals, networks and footfall data to work to our businesses.

Want to find out more?

As we head towards our 5th ballot, we propose to raise our RV threshold to £45,000 + and also propose to expand the current BID area. Levy payers continue to be key city partners, helping to shape the city and its future, and be included within the ever expanding areas within the city centre.
